G

**Getting started in Denmark** is an event organized by the International Academic Staff services. It will cover most of the topics that international students need to know to settle in Aarhus and ensure that you are registered with the public authorities. Please sign up in advance by using the links on the **website** to ensure that you can participate soon after your arrival.
Going abroad should be work in different scientific environments should be planned for all PhD students. At iNANO, this research environment exchange should be at least 7 weeks long in total. There are several things that you should be aware of in connection with going abroad such as insurance and teaching exemption. You can read more on the GSST website.

Grants are available for going abroad. They include Knud Højgaards Fond, Augustinus Fonden, Danmark-Amerika Fondet, and Oticon Fonden. Also, the GSST grant for going abroad can be applied for without a deadline.

GSST is the Graduate School of Science and Technology. GSST is responsible for salary, enrolment of PhD students, exams and general administration of the PhD programme. Depending on, who your supervisor is, your contact person at GSST, will either be Rikke Ljungmann or Helle Karvonen. Here at iNANO they have office hours every Monday from 12.30-15.30.

The GSST quick guide provides an overview of many of the practicalities regarding your PhD study. Among other things, the quick guide contains information about illness, insurance, and the PhD planner.

H

Holidays must be registered by contacting Trine Møller Hansen. You should arrange with your supervisor when to take holidays before registering you holiday. If you do not actively register any holiday, you will be assigned standard holiday. It is important that you do not work in the laboratory when you are registered to be on holiday, because you will not be covered by AU insurance during your holiday.

Housing, both temporary and permanent, for international students can be mediated by the International Centre.

I

By illness you should notify Trine Møller Hansen if you are employed. What you should do, depends on if you are employed and if so where you are employed. You can read more about the rules for reporting sick leave on the GSST quick guide about illness.
The iNANO registration form should be filled out before you arrive. This will speed up most of the administrative tasks that we need to go through for new PhD students.

Insurance for AU employees is covered by AU’s insurance on work-related travels such as workshops, academic visits etc. if they have an insurance card. You can read more in the GSST quick guide about insurance or at the AU travel insurance website for more elaborate information. To obtain an insurance card you have to fill in the travel insurance form, get the signature of your supervisor, and pick up the card at Annette Wandahl’s office.

The International Academic Staff services and International Centre can help you both pre-arrival, on arrival, when you have to settle in to life in Denmark, and when you are leaving Denmark. The International Academic Staff services can help you with many different matters including housing, registering for a CPR number and so forth. We highly recommend that you sign up for the Getting Started in Denmark event. It is also worth taking a look at their Guide for International Academic Staff.

International community in Aarhus is a great opportunity to strengthen your network in Aarhus. You can read more about their activities on the international community website.

Introduction days are hosted by both the International Academic Staff services, and AU HR. Furthermore, GSST will invite you to a PhD introduction day by email when you arrive.

An introductory meeting will be arranged for you, your supervisor, and the head of the PhD school approximately one month after your starting date.

IT-Helpdesk can be reached by either phone (+45 8715 4010) or by email. Furthermore, Jens Ole Jensen is our on-site It supporter. You can reach him most Tuesday in office 1590-222.

J

K
**Keys** are handed out by the Student Helpers in office 1590-218.

**L**

**Labbook** is an online logbook that you will have access to when you have been assigned an AU email.

**M**

PHAUST is the PhD Association at Aarhus University - Science and Technology. You can read more at the PHAUST website.

Your PhD administrator at iNANO is Maria Kragelund. She is currently on maternity leave. Her substitute is Ditte Høyer Engholm. You are always more than welcome to contact your PhD administrator if you have any questions regarding the practicalities of your PhD.

The PhD planner is an online tool for registering all academic matters relating to your PhD studies. You can login from the PhD planner website. PHAUST has a quick guide for how to use the PhD planner.

A portrait photo is welcomed for our internal database. It will not be publically displayed.

Posters can be printed at the University’s printing service AUTRYK. You can either pay in cash or, if you have an agreement that your supervisor will pay, provide an account number when ordering your poster.

If you win a first prize for best poster at a conference, we would like to encourage you to exhibit the poster in the iNANO foyer. You can send the poster to the PhD administrator, who will make sure it is exhibited.

Psychological help for PhD students at AU is available for up to five hours free of charge, provided that there are good reasons to justify this. The aim is to help students finish the PhD study. You can get consultation on referral or anonymous counselling. You can read more about AU’s psychological counselling scheme.

PURE is the ‘PUblication and REsearch’ database where all publications must be registered. It is also your personal AU website (http://au.dk/en/xxx@inano, where xxx is the username from your email account) and online CV. You should as a
minimum update it with a picture, room number, email, and phone number through the PURE website.

Q

R

S

Salary is paid monthly in arrears, on the last weekday, to your Nemkonto.

SKAT is the Danish tax authority. You can check and correct your preliminary assessment of income at SKAT’s website. You sign in with your NemID.

Some software for work computers not issued by your supervisor is available through the IT service. They have a list of software that is freely available or can be purchased with discount.

Student helpers’ office is in 1590-218. They will be able to help you with office supplies, printers, paying for coffee for the Nespresso machine, and much more.

T

Teaching and communication assignments should be carried out with reference to your employment contract. Your PhD administrator will ask you about your wishes for teaching assignments before each semester and will try to meet your wishes but you may be assigned other tasks. You can check the status of your teaching assignments in our internal database.

Teaching exemption (due to illness or study abroad etc.) can be granted by your PhD partner at GSST. Depending on the reason and the timing of your requested teaching exemption, it may be with or without salary reduction.
Travel booking of airline tickets must be done through CWT or the Airline company directly – booking through other travel agencies is not allowed. For more information see CWT.

The University International Club, also known as UIC, meets on a weekly basis to network, learn something new, and just have fun.

Visit Aarhus is the official website for Aarhus providing information about what to see and do in Aarhus.

WAYF-login (short for Where Are You From) is the connection between your login at AU and external web services, such as PURE. With WAYF you only need to remember the username and password for mit.au.dk. When you are logged on, you can switch between the various web services without a revalidation of the login.

A welcome package, especially for international students, should be received upon arrival. It contains information about AU, Aarhus, and about being an international citizen in Aarhus.

Webmail is your online email account at AU and can be accessed through the webmail login page.

Wifi can be accessed through eduroam using you AUid on the AU premises.

The work environment is especially important when working in the laboratory. When you start working in the lab, make sure that you get a through guidance of the safety procedures before you start your project.
