

**ESOF**  
**2014**  
EUROSCIENCE  
OPEN  
FORUM

**Dear potential ESOF 2014 contributor,**

It is our great pleasure to announce that the call for proposals for the Euroscience Open Forum 2014 scientific programme is open as of today January 15, 2013. Please, learn more about the call on [www.esof2014.org](http://www.esof2014.org).

Euroscience Open Forum (ESOF) is an interdisciplinary, general science meeting that is held every other year, visiting the major scientific cities of Europe and bringing global science to the attention of all citizens.

The 2014 edition of ESOF will take place in **Copenhagen, Denmark, June 21-26, 2014** and is organised in collaboration between the Danish Ministry for Science, Innovation and Higher Education and the founder of ESOF, Euroscience.

The event will bring together over 4500 scientists, business leaders, government officials, students, policy-makers and media to discuss the best of European science and to address all of the current major global scientific challenges.

The scientific programme of ESOF 2014 is highly prestigious and we expect numerous proposals. The call will close May 9, 2013, and we encourage you to put together an excellent proposal respecting the selection criteria explained in the call for proposals, which can be found on [www.esof2014.org](http://www.esof2014.org).

ESOF 2014 Copenhagen comprises an ambitious science festival that is organized in order to facilitate public dialogue, interaction and mutual responsiveness between scientific communities and society at large. If you want to take part in this dialogue and contribute with activities you can read more on [www.esof2014.org](http://www.esof2014.org), where a call for expression of interests can be found.

If you have any questions or comments you are welcome to contact Head of Section, Thomas Trøst Hansen ([tth@fi.dk](mailto:tth@fi.dk), +45 7231 8395).

Yours sincerely

**Prof. Klaus Bock**  
Champion ESOF 2014
